

## FARM AND HOUSEHOLD.

—Potato tops should be left on the ground they grew on.—*N. Y. Times.*  
 —The sooner milk is placed in pans after milking, the larger will be the yield of cream.—*Chicago Journal.*  
 —A frequent cause of malaria is impure water from cisterns and wells. Upon the first symptom of any unpleasant odor clean out the cistern. See that the well receives no drainage from any unclean source.—*N. Y. Herald.*

—It may seem extravagant to cut up and plant the largest, smoothest, and nicest potatoes raised, but a very few trials, taking one year with another, will soon convince the grower that it is the most profitable thing to do.—*Chicago Tribune.*

—A Nevada woman has a novel way of preserving eggs: During the summer she breaks the eggs, pours the contents into bottles which are tightly corked and sealed, when they are placed in the cellar, neck down. She claims the contents of the bottles come out as fresh as when put in.—*Exchange.*

—The latest novelty in bed linen consists of sheets, pillow cases and shams hemstitched and embroidered, and decorated with diamond-shaped and square blocks of linen, hemstitched or in geometric patterns of various kinds, and bordered by frills hemstitched and varnished in the edges. Others are hemstitched in rings and dots.—*Detroit Post.*

—Vienna Knobs: Beat half a pound of butter to a cream, stir into it the yolks of four eggs and two whole ones, half a pound of sifted sugar, the grated rind of half a lemon and, by degrees, half a pound of fine flour. Put little round lumps on buttered tins, egg them over, and strew them with sliced almonds, currants and sugar. Bake them in a moderate oven.—*N. Y. Times.*

—A kerosene stove with three or four burners is a very convenient thing to put in cellars, and leave burning when the thermometer is far below zero. It will at such times raise the temperature several degrees, often enough to make just the difference between safety and loss of perishable vegetables by frost. The stove should be set on the floor, as the heat rises, while the frost is more injurious at the bottom of the cellar.—*Albany Journal.*

—Should a fowl become crop-bound, work the crop well with the hand, and endeavor to force away the obstruction in the passageway to the gizzard. Should this fail, draw the skin to one side and cut the crop sufficiently to relieve it of the contents. Sew up the wound with silk and the fowl will not be seriously damaged. After the cutting be sure the obstruction in the passage is removed as well as the contents.—*Prairie Farmer.*

## When to Make Pork.

Swine should be converted into pork before very cold weather, except young ones that are to be kept through. These must have warm, fairly clean, dry quarters or their keeping will not be a source of profit. A hog will live in a small box that he can crawl into to get out of the snow, but a hog or other animal that just lives in an expensive boarder for a man to keep. Six or seven months is long enough to make a nice piece of pork from any well bred, weaned pig, and he who takes a year for it is pretty sure to throw away three or four months' feeding material. Every farmer ought to know that the more rapidly he converts a young pig into pork, the less the pork will cost him per pound, and too many still adhere to the old way of buying shoats in the fall and keeping them a whole year to get from three to four hundred pounds of pork. No pig that weighs forty pounds in October should be allowed to go through the heat of the following summer, but should be hurried along and made to weigh from two hundred and fifty to three hundred pounds or more, dressed, by the last of May. A barn cellar is often condemned for pigs, but if light, dry and warm, there can be no better place for them on the farm. They will keep the manure packed down solid, so it will not spoil by heating, and they will eat and grow almost as well as in summer. Pork is low just now and many will be discouraged about pork making and will keep no pigs this winter, but if hogs have usually been kept it would be foolish to let them go now, for it is not unlikely that those who do will find themselves without pork when high prices are offered again.—*New England Farmer.*

## New Method of Curing Hams.

A contributor to the *Country Gentleman* makes a novel suggestion for smoking hams. As a substitute for the smoke house, he says, smoke a barrel thoroughly with maple or hickory chips (raise the barrel an inch or two from the ground to furnish draught), and when smoked sufficiently, sweep out the inside and give it a slight rinsing with cold water. When you have thus prepared it, pack the hams and shoulders in it, flesh side up, and pour over them the pickle in quantity sufficient to cover them, and your work is done. The pickle extracting the desired smoky flavor from the barrel, will carry it through the whole mass of meat, and much more equally, or evenly, than by the usual process of smoking, as the flavor will be as strong in the center as at the surface of the ham. In addition to this even flavoring of the meat, this process will be found to be much less troublesome and laborious, avoiding the risk of falling into the fire, of a burning smoke-house, or into the hands of thieving neighbors, beside escaping the filthiness which is inseparable from the common way of smoking, and its consequent waste when preparing it for the table, as the meat is in every way as clean when taken from the barrel as when placed in it. By this process, all the expense, labor and trouble of bagging the hams after making, to keep them from the flies is obviated, as they may be kept submerged in the pickle till wanted, or the last piece is desired for the gridiron, pot or pan. Be sure to smoke the barrel very thoroughly if you would have strong flavor of smoke in your meat.

A patient in Barnwell County, South Carolina, has obtained a verdict for one thousand dollars against two doctors of that county, for damages sustained by their treatment of his broken arm.

—A Michigan girl told her young man that she would never marry him until he was worth \$10,000. So he started out with a brave heart to make it. "How are you getting on, George?" she asked at the expiration of a couple of months. "Well," George said hopefully, "I have saved twenty-two dollars." The girl dropped her eye-lashes and blushing remarked: "I reckon that's near enough, George." She was willing to trust him for the little balance.—*Detroit Post.*

—Mrs. Ruth Everett, of Salt Lake City, says that the Utah women who signed the petition to Congress protesting against any further legislation upon polygamy did so under coercion.—*N. Y. Sun.*

**The Latest Bonanza in California.**  
 BREWER, CAL.—Mr. Thomas P. Ford, editor of the *Mountain Tribune*, of this place, publishes that the great pain-cure, St. Jacobs Oil, has worked wonders in his family and that he would not be without it. He states that among all the people St. Jacobs Oil is the most popular medicine ever introduced.

"HACKED to death," is suggested as an inscription for the tombstones of visitors who die at Niagara.—*Buffalo Express.*

If you feel dull, drowsy, debilitated, have a yellow color of skin, or yellowish-brown spots on face or body, frequent headache or dizziness, bad taste in mouth, internal heat or chill, alternated with hot flushes, low spirits and gloomy forebodings, irregular appetite, and tongue coated, you are suffering from "torpid liver," or "biliousness." In many cases of "liver complaint" only part of these symptoms are experienced. As a remedy for all such cases Dr. Pierce's "Golden Medical Discovery" has no equal, as it effects perfect and radical cures. At all drug stores.

A good two-foot rule is never to wear tight boots.—*Detroit Post.*

Bad temper often proceeds from those painful disorders to which women are subject. In female complaints Dr. R. V. Pierce's "Favorite Prescription" is a certain cure. By all druggists.

THE CHAPS who fling the larriat among the wild steers, are the noose boys of the West.—*Chicago Herald.*

YOUNG or middle aged men suffering from nervous debility, loss of memory, premature old age, as the result of bad habits, should send three stamps for Part VII. of Dime Series pamphlets. Address: WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

A STIRRING speech: "Pass me a spoon."—*N. Y. Journal.*

I WOULD RECOMMEND Ely's Cream Balm to any one having Catarrh, or Catarrhal Asthma. I have suffered for five years so I could not lie down for weeks at a time. Since I have been using the Balm I can lie down and rest. I thank God that you ever invented such a medicine. FRANK P. BURLEIGH, Farmington, N. H.

A COLOR of cloth for coats is called "sugar." If the duds adopt it they will be sugar-coated pills.—*N. Y. Herald.*

FOR THREE WINTERS I have been afflicted with Catarrh and Cold in the Head. I used Ely's Cream Balm; it accomplished all that was represented. T. F. MCCORMICK (Judge Common Pleas), Elizabeth, N. J.

GILPIN, reading in a paper that "facts are stubborn things," says there's no particle of doubt but that his wife is a fact.—*Marathon Independent.*

Mrs. GENERAL SHEPARD says: "I have frequently purchased Durang's Remedy for friends suffering with rheumatism and in every instance it worked like magic." It cures when everything else fails. Write for free pamphlet to R. K. Helphens, Washington, D. C.

Don't Die in the House. "Rough on Rats" clears out rats, mice, flies, roaches, bed-bugs, etc.

Butter Buyers everywhere are refusing to take white, lard looking butter except at "grease" prices. Consumers want nothing but gilt-edged butter, and buyers therefore recommend their patrons to keep a uniform color throughout the year by using the Improved Butter Color made by Wells, Richardson & Co., Burlington, Vt. It is the only color that can be relied on to never injure the butter and to always give the perfect color. Sold by druggists and merchants.

Time is Money. Time and money will be saved by keeping Kidney-Wort in the house. It is an invaluable remedy for all disorders of the Kidney, Liver and Bowels and for all diseases arising from obstructions of these organs. It has cured many obstinate cases after hundreds of dollars had been paid to physicians without obtaining relief. It cures Constipation, Piles, Biliousness and all kindred disorders. Keep it by you.

A SWEET COLD, if neglected, often attacks the lungs. BROWN'S BRONCHIAL TROCHES give sure and immediate relief. Sold only in boxes. Price 25 cts.

## A TERRIBLE PROPHECY.

The Red Sunsets, Cyclones and Earthquakes Foretelling Coming Disaster—How to Meet It.

The recent mysterious appearances following sunset and preceding sunrise have attracted wide attention from students of the skies and the people generally. During the days of recent weeks the sun seems to have been obscured by a thin veil of a dull leaden hue which, as the sun receded toward the horizon, became more luminous, then yellow, then orange, then red; and, as night settled down upon the earth, a still purpler. At first it was thought these appearances were ordinary sunset reflections of light, but it is now pretty certain that they are either the misty substance of the atmosphere, or the reflection of some of the elements of the earth, or a surrounding stratum of world dust or very small meteors. Professor Brooks, of the Red House Observatory, Phelps, N. Y., has turned his telescope upon these objects and discovered what he thinks are myriads of telescopic meteors. It is an unorganized world dust, or decomposed vapors, as the *Democrat and Chronicle*, of Rochester, N. Y., remarks: "How is this substance to be explained? It is a misty substance, or the reflection of some of the elements of the earth, or a surrounding stratum of world dust or very small meteors. Professor Brooks, of the Red House Observatory, Phelps, N. Y., has turned his telescope upon these objects and discovered what he thinks are myriads of telescopic meteors. It is an unorganized world dust, or decomposed vapors, as the *Democrat and Chronicle*, of Rochester, N. Y., remarks: "How is this substance to be explained?
